

Coral Reefs of New Caledonia

We the undersigned members of Greens Parties and green People's movements of the Asia Pacific Region totally oppose the proposed INCO nickel mine at Goro, New Caledonia because of its adverse impact on the environment.

We call on the Government of France to prepare a nomination of the coral reefs of New Caledonia for World Heritage Listing.

We give our total support to the Green Party of New Caledonia in its efforts to protect the coral reefs and to secure their listing on the World Heritage Register.
